Drupal™

WHY YOU NEED TO UPDATE

Migrating to Drupal 8 Will Reduce Your Active Development Costs

COST BENEFITS

Drupal 7 Community Support is Dwindling

The industry-wide embrace of Drupal 8 leaves Drupal 7 sites in a tenuous position. Maintaining and upgrading this older framework will become increasingly more expensive and time-consuming as support for Drupal 7 further diminishes.

Over 200 New Features and Enhancements

Drupal 8's core functionality is much more robust than previous versions, including:

- Enhanced Security
- Increased Site Speed
- Improved User Experience
- Reduced time/cost for future development.

Built for Accessibility

Out of the box, Drupal 8 is more inclusive. Improved core functionality makes it easier to adhere to accessibility standards and create localized, multilingual websites for international audiences.

DRAMATIC CUSTOMIZATION IMPROVEMENTS
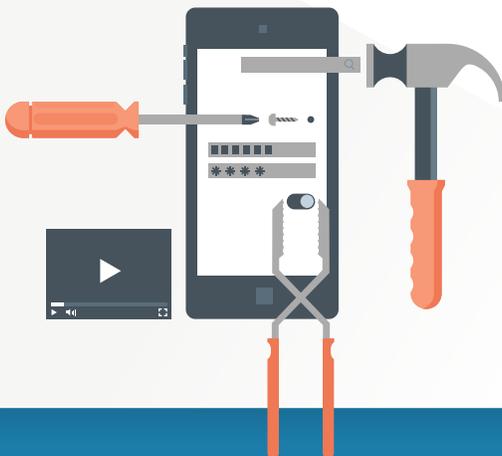

- Embrace a mobile-first strategy with enhanced tools for responsive web design.

- Customize the look and feel to reflect style guides, including fonts, colors, and graphics.

- Create unlimited user profiles, user roles, and distinct permissions.

- Allow multi-user content creation and editing with various permissions.

- Create workflow tools, triggers, and actions for content creation, editing, approval, and publishing.

GET STARTED WITH YOUR CUSTOM DRUPAL MIGRATION STRATEGY

mobomo

Mobomo's team of seasoned Drupal experts will perform an in-depth analysis of your existing Drupal implementation. We will provide a detailed plan that will meet your business goals as well as minimize future cost and risk.

Information Architect Review
- Review all custom field types, modules, and content types.
- Identify and catalog all user types and workflow.

The Content Migration Plan
- Provide a low risk content migration plan for all legacy data.
- Determine any custom fields and how they will be transitioned.
- Discover any gaps or current pain points in data elements.

Every Module is Checked for a Stable Drupal 8 Version
- Identify the upgrade path.
- Offer suggestions for more appropriate modules.

Understanding the Theme
- Review the current theme and provide guidance on any updates.
- Discuss Accessibility/508 Needs.
- Suggest SEO enhancements.
- Provide responsive design plans.
